To Our Customers and Friends:

We take pleasure in presenting herewith our catalog for 1950, in which is listed some three hundred varieties of gladiolus covering a wide range of colors in all size groups. Our listings, containing the best of the newer and older domestic varieties, as well as many outstanding European and Australian originations, are designed to meet the tastes of all glad growers from novice to professional.

Despite an unusually dry season, we have had our most successful growing year to date. An indication of the quality of our blooms, lies in the fact that our display in the 1949 New England Gladiolus Society Show at Boston received the seldom awarded Massachusetts Horticultural Society's Cultural Certificate, of which we are very proud.

Our crop of bulbs is the finest and largest we have ever produced; the stock being exceptionally clean, free of disease and thrips. Should you favor us with an order, you will be assured of receiving top quality, young, high-crowned bulbs, carefully selected and guaranteed true to name. However, in anticipation of continued heavy demand for our quality bulbs, we strongly urge your prompt action in placing orders to avoid possible future disappointment in not being able to get the variety or size bulbs you want. Orders will positively be set aside in the order received and held for shipment when you want them.

We welcome your personal visits to BIRCHVILLE GARDENS as well as your communications, and assure you any requests for information as well as your valued orders will receive our prompt and courteous attention.

With sincere thanks for your confidence in BIRCHVILLE GARDENS as evidenced by your past patronage, and with best wishes for a banner GLAD season in 1950, I am

Sincerely yours,

JAMES A. MILO

BUSINESS TERMS

(Please Read Carefully)

We will not substitute varieties or sizes unless your order specifically instructs us to do so. It is advisable to specify a second choice of variety or size, particularly if your order is placed late in the season.

Due to costs involved, we cannot accept any orders totalling less than \$2.00.

No orders will be accepted for less than the smallest unit listed in the retail list for each variety, except that when the smallest unit listed is ten, five bulbs will be sold at one-half the ten rate. Where bulbs are priced singly, ten bulbs will be sold at the price for eight. One hundred bulbs will be sold at eight times the price for ten.

All retail orders will be sent prepaid to all points in the United States.

Orders in the amount of \$5.00 or more accompanied by cash in full amount, will entitle purchaser to select additional bulbs of their own choosing in the amount of 10% extra. This premium offer, however does **not** apply to Collections, Special Offers, Wholesale Orders or 1950 Introductions from Birchville Gardens or from other growers or originators.

All Canadian orders must be accompanied by import permit from the Department of Agriculture.

SPECIAL NOTICE

Due to the continued and rapid expansion of our mailing list of persons requesting copies of our catalog and the mounting costs involved in getting out a catalog of this type, it has been necessary for us to adopt the policy of forwarding catalogs only to those on our mailing list from whom we have received orders for bulbs within the last three years.

NEW AND RECENT INTRODUCTION

SUNDAY BEST (Pletcher 1950)

We predict a wonderful future for this outstanding commercial. A beautiful, clear, light lavender, with a rose color blending into a deep cream throat. Opens 6 to 8 well-placed blooms on a 25 to 30 inch flowerhead with tall spikes. Sunday Best has very good bloom attachment and is a good shipper. Unusually healthy and vigorous with heavy propagation and germination. A wonderful grower from all size bulbs; this past season we cut good spikes from No. 5 bulbs. As a grower, will you be on the band wagon and grow SUNDAY BEST in 1950?

At the shows it will be a consistent winner, having won the American Home Achievement Medal and best seedling, also winner in its color class many times. In 1949, SUNDAY BEST received the second highest score (84½) at the Rhode Island G. S. Trial Garden.

1950 CO-INTRODUCTIONS

HAMLET (Larus 1950) Class 454

A lovely dark red self with no markings. The florets are somewhat waved and wide open with heavy substance. Hamlet has an absolutely clear color that catches the eye of both the grower and the public. Florets are strongly attached and the placement is excellent. One of the few dark colored varieties that can be left out in rain or sunshine without burning, flecking or weather spotting.

PERFORMANCE

Grows 50-55" tall with 16 to 17 buds on a 23-27" flowerhead and opens six 5-5¼" florets. Hamlet has very regular growth habits and practically all spikes from medium and large bulbs can be used. Over half of the spikes used at the shows this past year were grown from medium bulbs. A good propagator and has always been healthy.

SHOW RECORD

Has won three Awards of Commendation, three Awards of Merit, has been Best Seedling three times, and was a two day winner in the color classes at the Connecticut Show. In 1948 received an A rating at the Eastern International Show (the country's top show) despite the fact that the spike was freshly picked and only had 3 open. This year received Awards of Merit from Western Massachusetts, Eastern New York, and Connecticut Gladiolus Society.

Based on its performance as a seedling, Hamlet should become a reliable winner at the shows and is a fine commercial prospect — opens when cut in tight bud.

HARRIS INTRODUCTIONS FOR 1950

Jack W. Harris is the introducer of Florence Nightingale, Betty's Choice, Gaylore, Hostess, and others. Mr. Harris has tested these for five years and more, you can rest assure that they are all very outstanding.

STERLING—

This ruffled, rosy lavender grows up to 55 inches tall and is an entirely new color break in glads. It has 9 open with 7 more in color on a 20-bud spike. The 5 inch florets are perfectly placed, and have good attachment. Here is a glad you will love as it has heavy texture, good healthy growth, plus beautiful color.

FRASER—

A wonderful, heavily ruffled deep salmon with deeper throat that grows up to 56 inches tall. It opens 8 large florets with 6 showing color. Here is a glad that I predict will become one of the leading exhibition glads plus a wonderful commercial, as it is a good propagator, is always straight with perfect placement, and has good bloom attachment. Tested in the N.A.G.C. test gardens this received 1AA, 1A, 1B rating.

DOLLY VARDEN—

Another huge salmon with a cream throat. This sounds like a lot of other glads, but it is really one of the outstanding glads of the year. A blaze of color that will be one of the best commercial and show glads. Nine large 6½ inch florets open with 7 showing color on a 21 bud spike, with a 26 inch flowerhead.

DAYBREAK

A buffy cream with naive lines that grows up to 56 inches tall, having 8 large blooms open on a 20 bud spike. It will become a good commercial at it is a good propagator. It is always straight with perfect placement and good bloom attachment.

Prices on the 4 Harris varieties are as follows:

Large \$3.00	Medium \$2.00	Small \$1.00	Bulblets 25¢ Each.

FROM BYRON KADEL

Clarence D. Fortnam

We believe and hope that this glad will prove to be a fitting memorial to the great showman for whom it is named.

"CLARENCE D. FORTNAM" is a glad with a statuesque beauty, blush pink in color. Its 5" florets, heavily ruffled and needlepoint, are borne on a 24" flowerhead with 8 of its 21 buds open and another 8 showing color. The champion spike at the 1949 Maryland show held 10 open on the second day. The height of the plant in the field is 56". It blooms in 90 days from bulbs planted directly from cold storage. If the bulbs are sprouted at planting time they will doubtlessly bloom a week to ten days earlier. Bulblet production and germination are excellent. Its heavy substance, tight attachment and ability to open when cut make it a promising cutflower. As an exhibition variety its show record speaks for itself.

- 1948: Voted "most beautiful" at Eastern International Show, Winner of American Home Achievement Medal at both the Keystone State and Maryland shows.
- 1949: Grand champion at Maryland show. Best spike in open division, and "most beautiful" at the Eastern International Show. "Most Beautiful", and second day champion at the Lima show.

Introductory prices: Any size bulb, \$5 each. No bulblets for sale this year. (If we are sold out of the size you order, may we substitute the nearest size in stock?)

Fairyland

FAIRYLAND is a heavily ruffled glad of medium size. The color is a medium rose with an inconspicuous throat mark of a deeper shade. It is recommended chiefly for its decorative value. It opens six 4" florets with six more showing color on a 15-16 bud spike. Height 50". Flower-head 22". Stem is straight and strong. Propagation is excellent. A basket of FAIRYLAND won the N.A.G.C. medal for champion basket at the 1949 Keystone State Show.

Introductory prices: Any size bulb, \$1. each. Bulblets, 10 for \$1. Starter unit of 1 large, 3 medium and 5 small bulbs, plus 25 bulblets for \$8.

Formality

FORMALITY is blush lavender in color with a cream throat. The 4" florets with recurved petals are close-set without crowding. This gives the spike a quite formal appearance, especially so when 8-10 florets are open at one time. The 24" flowerhead carries up to 22 buds. Because of its precise form and habits we believe it will be hard to beat on the show table in the 300-section. Propagation is excellent. Blooms in 88 days from cold storage.

1949 awards: American Home Achievement Medal at Eastern International Show at Binghamton. Best 300-spike in open division at Delaware. Seedling rating "A" at Keystone State and Delaware Shows.

Introductory prices: Large bulbs, \$2.00 each. Medium and small bulbs, \$1.00 each. Bulblets, 10 for \$1.00. Starter units of 1 large, 3 medium and 5 small bulbs, plus 25 bulblets for \$8.00.

MELLOW MOON (E. Bane Snyder 50) 420—80

A beautiful light orange, nearly self color, for which the name MELLOW MOON is a natural and best describes its mellow glowing color. Truly a new era in golden color which is entirely different. Opens 8 good facing, well attached, 5 to 5½ inch florets with good substance on 18 to 20 bud, 28 to 30 inch flowerhead, with 6 buds showing color. Medium very stiff spike, grows 60 inches or more tall. Florets are nicely ruffled and slightly waved. Opens to tip when cut in tight bud. Produces large amount of bulblets which germinate easily, making fine looking bulbs. Tops for both exhibition and commercial growing. Judging from the great number of favorable comments both at the Maryland and Binghamton shows, MELLOW MOON is sure to go over in a big way.

FROM DIRK KROON

MAJORETTE (Kroon 50)

MARJORETTE is a pure rosy pink which we had the pleasure of growing in 1949 under seedling No. 244-124 Grows up to 55 inches tall with 5 open. The 5 inch florets are firmly attached and well placed. We predict a big future for this variety as a cut flower as it is very early. Color some what like Rosa Van Lima. Some of the largest growers on the West Coast are interested in MAJORETTE.

Prices for 1950 \$3.00 each for large or medium. Bulblets 12 for \$3.00.

RECENT INTRODUCTIONS OF BIRCHVILLE GARDENS

ROBERT ALAN (Lorenz 49)

None More Beautiful! None More Dependable!

A wonderfully brilliant, waxy, golden yellow, with no markings. The color is always pure and clean. It grows 55 to 60 inches tall and has 20 to 22 buds with 8 open. The large 5½ inch florets are well placed on a long flowerhead. The plant has a rich glossy foliage with broad leaf. We consider ROBERT ALAN the finest clear yellow. Compared with any present yellow, ROBERT ALAN will prove first in quality, beauty and performance. At its first showing in 1946 as a seedling, offers of \$100.00 per bulblet were refused by the originator. A good producer of bulblets that grow unusually well, making fair sized bulbs. As far as I know, this is the only glad receiving a 100% AA rating (Very superior) to date. Shown at Connecticut and Western Massachusetts shows in 46 and 48. ROBERT ALAN received the following awards:

- 1946 Award of Commendation at Connecticut
- 1948 Award of Merit at Connecticut and Western Massachusetts
- 1948 AA rating at Connecticut and Western Massachusetts
- 1948 1st in color class at Connecticut and Western Massachusetts.
- 1949 Received score of 85 — highest rating of all glads tested at the Rhode Island Gladiolus Society Trial Garden.
- 1949 To date we know that this was shown at 6 shows, winning first in its color class in all six.

LORAINÉ (Foster 1949) 85 Days

Only as it grows in your garden, can you realize the beauty of LORAINÉ. It is a fine pink with a cream throat. Florets are somewhat ruffled with perfect placement and never crooks. It is a good strong grower, making up to 60 inches. Stands up well in the heat when others are bowing their heads to the ground. Very strong, straight stem, generally producing a 26 inch flowerhead with 20 buds, opening 6 and many showing color, often to the end of the spike. Substance is very heavy. A very lovely flower that you will want to grow.

TIVOLI

COTILLION

GRACE DARLING (Harris 1949)

So richly beautiful is the blending of soft rosy pink and white, that one is at once reminded of apple blossoms. The originator had at first planned giving the name of Apple Blossom to this beautiful glad, but was prevented from so doing as another glad bears that name. A tall grower, making up to 60 inches tall, opening 8 five inch florets on a 26 inch flowerhead, with 5 showing color. The florets are well attached with excellent texture. GRACE DARLING, being another Harris origination, bears the stamp of Quality.

FLORENCE NIGHTINGALE (Harris 47)

(Birchville Gardens is the headquarters for Florence Nigh'ingale in the U. S.)

FLORENCE NIGHTINGALE is a marvelous glistening white, which is heavily petaled and ruffled. It is beautiful beyond description, for it has everything to be desired to make it so. It absolutely does not fleck. It grows 68 inches tall, with a 28 inch flowerhead. It opens 6 to 8 well-placed florets on a 21 bud spike. It has received top rating from trial gardens and growers. Growers will be interested in FLORENCE NIGHTINGALE, not only for its outstanding qualities, but also because of the absence of Picardy blood. This past season this was tried out in Florida and reports say it is the best white ever grown there; also a wonderful shipper. Will become the leading cut flower in a few years.

SKYWAY (Dr. H. W. Stevens 48) 70 Days

No doubt about it this is the most sensational early cut flower to date. A very early, clear, light pink with a white and cream throat. While the color description may sound common, let me assure you that SKYWAY is a very beautiful glad which will become one of the leading cut flowers. It will open 7 on a 32 inch flowerhead of 18 to 20 buds. The 5½ inch florets are well attached on a 58 inch spike which is always straight. SKYWAY received an Award of Merit and best 3 spikes at Connecticut, also Award of Merit at New York and "A" rating at New Jersey, all in 1948.

Prices for 1950	Large \$3.00	Medium \$2.00	Small \$1.00	Bulblets 10-\$2.40
See retail and wholesale list.				

DOROTHY ARMSTRONG (Beardmore 1948)

A medium shade of purple that has lots of class with its tall, graceful, wiry spikes. Eight wide open 4½ inch florets on a long flowerhead. A one hundred per cent cutter that stands the heat very well. It is a strong grower and good propagator, and is doing very well on the show bench. In 1948 I predicted this would go clear to the top as the leading cut flower purple. The demand has proven this.

For prices please refer to retail or wholesale list.

REDOWA

ADORATION

VENIDA (Milo 47) 460—88 Days

The sensation of the 1947 introductions, VENIDA is a beautiful rose with a cream blotch. Grows 50 to 60 inches tall, with 24 to 28 buds on a very long flowerhead. Opens 8 with 5 showing color. Has received many awards at shows. We have continued to receive glowing reports from growers everywhere praising the excellence of VENIDA. Will make good spikes from all size bulbs.

YANKEE LASS (Schenetsky 46) 440—87 Days

YANKEE LASS is one of the finest glads in the light shades. Opens 8 to 10 five-inch florets on a strong 60 inch spike. Its color is a beautiful shell pink without markings. YANKEE LASS must be seen to appreciate its unusual sheer beauty. Every spike comes straight and true, with all florets perfectly placed. A vigorous grower and good propagator. Must be included in the list of best 10 glads.

ABIGAIL (Myers 46) 466—70 Days

Another top-notch glad from our recent introductions. Color is about the same as Minuet. Opens 7 to 9 beautiful large lavender florets on a 50 to 60 inch spike with double row placement. A wonderful propagator. Growers have just wakened up to the fact that this is one of the leading cut flower lavenders. Early and reliable cutter.

See Retail and Wholesale list.

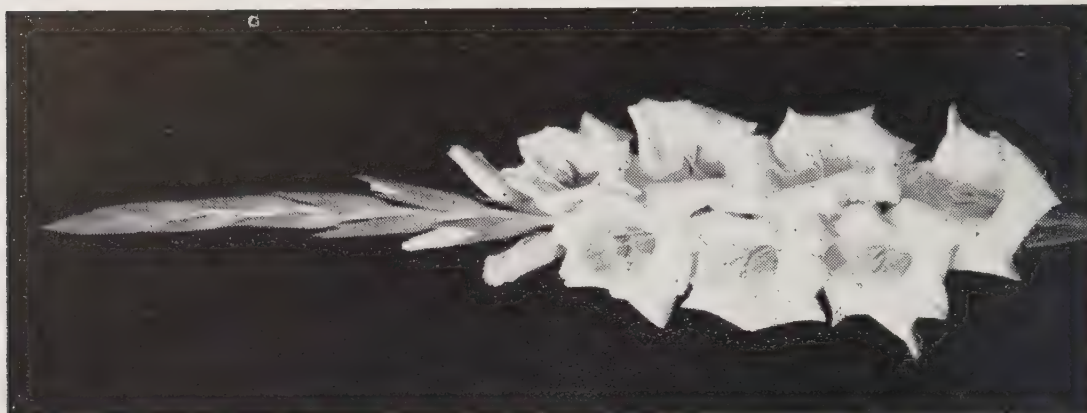

1950 CO-INTRODUCTION
ALOHA (Graff 1950)

A very beautiful colored gladiolus. It stands fifty-five to sixty inches in height. The flower head is about thirty inches long having a total of twenty-two buds. The stem is wiry, straight, and strong. The balance is good, its facing erect, and the texture is firm. Its lasting qualities are excellent. Its placement is good and it is very healthy. It will open six to eight florets in the field.

The color is that of a ripe apricot. The throat is lighter than the floret itself. It is mildly ruffled, has a moderate mid rib, and the stamens are pink-red with lighter pollen. It opens well when cut in color bud. Its texture and attachment is firm. Bulblet increase and germination is good.

Bulbs this season will be from bulblet grown stock only:

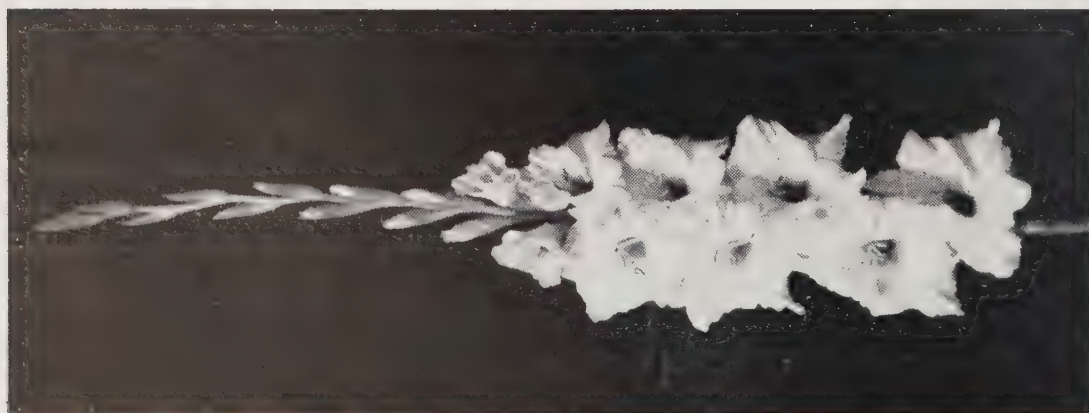

- Large, Medium or Small \$5.00 each
- Large, Medium or Small with 10 selected bulblets \$10.00

CLASSIFICATION OF VARIETIES

Variety descriptions contained herein are, where such information is available, preceded by date designed to acquaint prospective buyers with certain pertinent information regarding the particular variety.

ORIGINATOR AND YEAR OF INTRODUCTION:

Following the name of the variety, are given the name of the originator and the year the variety was first introduced for sale.

SIZE AND COLOR CLASSIFICATION:

The next three figures designate the floret size and color classification as adopted by the North American Gladiolus Council. The first digit indicates the floret size while the last two digits indicate the color classification.

FLORET SIZES:

- 100 — Florets under 2½ inches.
- 200 — Florets 2½ inches thru 3¼ inches.
- 300 — Florets above 3¼ inches thru 4¾ inches.
- 400 — Florets 4½ inches thru 5¾ inches.
- 500 — Florets 5 1/5 inches and larger.

COLOR CLASSIFICATION:

- | | |
|--|---------------------|
| 00 — White | 40 — Pink (Light) |
| 06 — Cream | 42 — Pink (Deep) |
| 10 — Yellow (Light) | 50 — Red (Light) |
| 12 — Yellow (Dark) | 52 — Red (Deep) |
| 16 — Buff | 54 — Red (Black) |
| 20 — Orange (Light) | 60 — Rose (Light) |
| 22 — Orange (Deep) | 62 — Rose (Deep) |
| 24 — Orange (Red-Orange) | 66 — Lavender |
| 30 — Salmon (Light) | 70 — Purple |
| 32 — Salmon (Deep) | 76 — Violet (Light) |
| 36 — Scarlet | 78 — Violet (Deep) |
| 80 — Smoky Shades (Orange, Salmon, Pink and Red) | |
| 86 — Smoky Shades (Lavender and/or Rose) | |
| 90 — Any Other Color; poly-chromes | |

Color class numbers 01, 07, 11, 13, 17, 21, 23, 25, 31, 33, 37, 41, 43, 51, 55, 61, 63, 65, 69, 77 and 79 indicate conspicuous markings such as darker blotches and feathers for the color (indicated by number) immediately preceding those odd number, as shown on the color table above.

BLOOMING DATE:

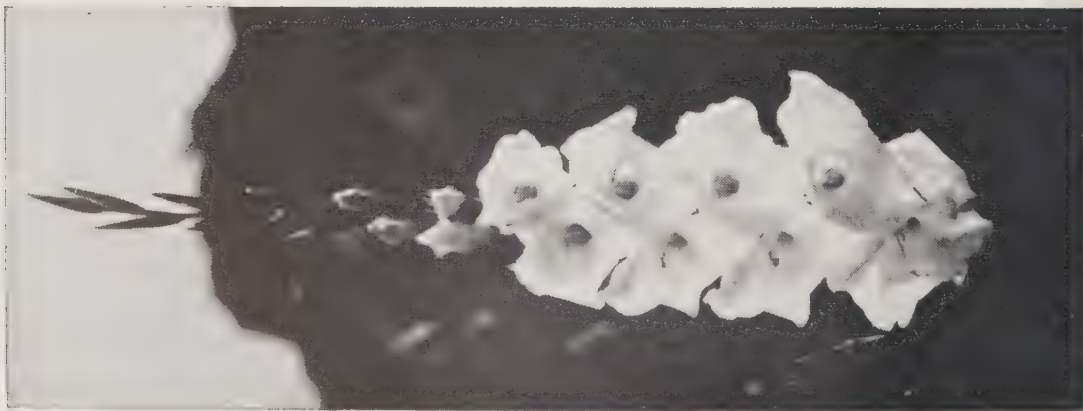

The set of figures following the floret size and color classification, indicate the number of growing days required from planting to date of blooming. The number of days to bloom is usually figured for large bulbs. Medium size bulbs usually require from five to seven days longer to bloom. Because of variations in climate, the number of days for a particular variety to bloom may vary by several days. However, the listed blooming dates will give a fair approximation of what to expect of a variety.

JANET LEE (Fairchild 47) 420—80	1	1.25	.75	.50	5
Beautiful blending of orange and yellow. Opens 6-8 large well placed blooms on a rather short flower head. One of the most beautiful.	10	10.00	6.00	4.00	10
JAVA (Salman 48) 512—85	1	.50	.35	.25	10
Very rich and brilliant yellow that has poor placement and loosely attached florets. Personally I can't see why it was introduced, but have had some good reports.	10	4.00	2.80	2.00	100
JOHAN VAN KONYNENBURG (K. & M.) 436—85	1	.15	2-.25	2-.15	10

JOURNEY'S END (Kadel 44) 432—74	1	.25	.20	2-.25	10	.25
A deep salmon-pink with a deeper throat and petal margins. Its 6 inch florets are carried high on a tall strong stem. It was the Champion seedling at the Havre de Grace, Maryland show in 1941 and the achievement medal winner. It has been a consistent winner.	10	2.00	1.50	1.00	100	2.00
JUNE DAY (Roberts 46) 441—58	1	.50	.35	.25	10	.50
A pure pink with a small cherry blotch. It opens 6 or 7 florets on a tall 20 bud spike and has very good placement. It is about the earliest variety grown and will be very profitable as a cut flower.	10	4.00	2.80	2.00	100	3.50
KATHY LEE (Fairchild 47) 410—75	1	1.00	.75	.50	10	.75
A clear light yellow with no markings. Florets are heavily ruffled, and the 5 inch florets are well placed on good spikes. Looks like a good newcomer in the cut flower field.						
KING ALFRED (Hobbs 45) 532—80	1	.20	.15	.10	25	.25
A very large orange-salmon with a cream blotch. It is a wonderful grower of tall spikes and opens 6 on a 21 inch flower-head. It has a good show record and received an award of merit from the Maryland trial gardens. King Alfred is a really distinctive glad that I know you will like.	10	1.60	1.20	.80	100	.75
KLONDIKE (Snyder 47) 412—75	1	.75	.50	.40	10	.75
A deep yellow with 5 inch florets that has 8 open and 7 showing color on a 20 bud spike. The florets are ruffled and of a very good texture. I predict this glad will become one of the best g'lads for shippers.	10	6.00	4.00	3.20		
LADY ANNE (Buchanan 47) 400—67	1	.35	.25	.15	10	.30
In my opinion the best early white. It is better than Texas. Opens 7 lustrous and ruffled 6 inch florets on a 27 inch flower-head. One of the best new varieties. Don't miss LADY ANNE.	10	2.80	2.00	1.20	100	2.50
LADY BOO (Graff 44) 440—90	1	.25	.15	2-.20	10	.25
Purest shade of shell pink which has no markings. A 100% cutter of good straight spikes, and one of the best for cut flower growers.	10	2.00	1.20	.80	100	2.00
LAKE SIDE ORANGE (Kuhn 48) 432—80	1	2.00	1.50	.75	1	.25

1950 CO-INTRODUCTION

NEW YORKER (Graff 1950)

The color is a very delicate shade of pink It sometimes has a heavy concentration of color along its venuls. It has a heavy mid rib that is lighter than the petals. The lower two petals have a light throat marking and a small amount of red peppering in the throat. This gives it a little extra life and buoyancy. The stamens and pistols are light pink. The edge of the florets are frilled and it attains a height of fifty-five to sixty inches. The flower head is twenty-eight to thirty inches having a total of twenty to twenty-two buds on a perfect balanced, wiry stem. The facing and placement is excellent. The texture is good as is its lasting quality. It will open six in the field and eight indoors. Its attachment is firm and its health quality is good. Good bulblet increase and good germination. Almost all of its bulblets will bloom.

- Bulbs this season will be from bulblet grown stock only:
- Large, Medium or Small

\$5.00 each
- Large, Medium or Small with 10 selected bulblets

\$10.00

MINIATURES OR SMALL GLADIOLUS

The demand for these small gladiolus is growing more popular each year. For decorations and bridal bouquets they are really more useful then the larger glads.

STANDARD ONE-PRICE VARIETIES

The following standard varieties are being grouped this year at one standard price, to enable our customers to select these varieties without looking up prices separately. Those listed below are priced as follow.

Large 10 for 80¢ Medium 10 for 50¢ Small 10 for 25¢ Bulblets 25¢ Pkg.

ALGONQUIN (Palmer 39) 536—80

A brilliant, glowing scarlet, with 8 to 10 open blooms. One of the best.

ANNAMAE (Pommert 40) 400—70

A pure chalk white that is one of the first to bloom. A wonderful florist variety that is always in demand. Very dependable in its growth. Medium height.

ARCTIC SNOW (Harris 41) 300—85

A very tall white, with light cream throat. A heavy show winner in its class, being hardly ever beaten, and has won Division championship and most beautiful in show. Has one of the longest flowerheads.

ARIADNE (Mitsch 37) 401—86

A creamy-white with a striking red blotch. This is one of the oldest ones in catalog and is a real beauty. Was greatly admired at the Binghamton show.

BANCROFT WINSOR (Winsor 41) 423—90

One of the best orange varieties which does not burn in the sun. It is fine, tall grower that opens 6 well placed florets. Not as well known as it should be.

BEACON (Palmer 35) 436—90

Clear bright rose-scarlet with a large blotch. A very popular glad.

BIG TOP (Rich 42) 541—75

A giant light pink, with a small carmine feather deep in the throat. Grows six feet tall and is still hard to beat at the shows. Best spike in Conn. in 47 and longest flowerhead in Conn. in 1948.

BLUE BEAUTY (Pfitzer 36) 476—75

One of the best blues both for show and commercial use. A tall strong grower that is very early.

BOLERO (Leffingwell 41) 582—85

A ruffled, smoky orange with a dark red blotch. A great novelty that everyone seems to like. Opens 6 to 8 ruffled needle point blooms. Nothing else like it.

BOULOGNE (Salman 47) 562—85

One of my favorites, it is a tall wine-red that opens 8 on a well-formed spike. Opens well and should become very popular. I am sure you will like it.

BRIDESMAID (Wheeler 45) 540—80

Large pink with cream throat that has six inch blooms. A very consistent grower of good spikes.

BUCKEYE BRONZE (Wilson 40) 490—90

A very outstanding bronze with orange shading. Has outsold all other novelties. Opens 6 to 8 on good spikes. I am sure you will like it.

BUCKEYE QUEEN (Beardmore 45) 430—90

Beautiful tall pink, slightly ruffled, with 18 bud spikes, opening 6 to 8 well-placed florets at a time on a good flowerhead. Wonderful grower and keeper.

BURMA (Palmer 43) 562—88

This past season it won at most of the largest shows. In my opinion it is getting better each season. A very deep rose-red, with 6 wide open blooms that are very heavily ruffled.

CASABLANCA (Majeski 44) 400—95

A very tall creamy-white, opening 6 to 8 ruffled blooms on a long spike. A good propagator.

CHAMOUNY (Baerman 38) 460—85

A cerise rose with a silver edge on all petals. Opens 10 on a long flowerhead, and is a very distinctive color. Wonderful cut flower and always in demand by florists.

CHERRY JAM (Zimmer 43) 543—80

Heavily ruffled, deep salmon-pink with a large cherry blotch. Opens 8 on good spikes. A novelty that everyone admires.

COLOR MARVEL (Krueger 46) 300—75

An unusual blend of orange and pink, medium size florets on a nice tall spike. Color is beautiful and it is a good propagator and healthy grower. Not a good shipper, but good for local use.

CONVOY (Palmer 42) 570—85

A clear purple that opens 5 to 6 large blooms on a good spike. One of the best purples, and a good grower.

CORONA (Palmer 40) 560—80

Creamy-white shading to a cream throat with a rose picotee edge. Very beautiful, a favorite with the florists and a tremendous propagator.

CRINKLECREAM (Ellis 40) 410—86

A giant medium yellow that should be better known. Has good placement and opens 6 on good spikes. Needs good culture to bring out the best in it. A wonderful commercial and show variety.

DESTINY (Butt 43) 536—85

Very tall scarlet with white arrows in the throat. This is an extra large variety that most growers think is one of the best. Bulbs are healthy, but lack husk, as do Red Charm and others from the same source.

ELANORA (Errey 37) 470—85

A rich rose-red violet which opens 12 florets with the buds showing color. A good grower and one that has won hundreds of ribbons.

ELIZABETH THE QUEEN (White 41) 566—86

Beautiful lavender with darker lines in the throat. It has large ruffled blooms with 8 open, and is one of the most beautiful glads grown. Our stock of this is without doubt one of the best in the country, for it seems to grow taller.

FAIR ANGEL (Hatch 42) 400—85

Early large creamy-white with a deeper cream in the throat. It opens 8 six inch ruffled blooms on a tall spike.

FIANCEE (Lins 43) 440—85

A greatly enlarged version of Sweetheart, the plants are taller and the florets much larger. This is a clean pink with a large white blotch.

FIREBRAND (Butt 44) 452—85

A deep blood-red that is well named. It grows tall with 8 to 12 large florets open on a straight stem. One of the best from Mr. Butt.

GAYLORE (Harris 44) 432—80

A deep salmon-pink with cream blotch. Tall strong grower that opens 6 large blooms and cuts 100% good spikes. One of the most popular as a cut flower here.

GENERAL DOUGLAS MacARTHUR (Hatch 43) 441—70

Very early tall pink that has jumped to the front as a commercial. Opens 6 well placed florets.

GENGHIS KHAN (Scheer 41) 432—80

Heavily ruffled medium light pink blending to a light cream throat. Opens 6-7. Very beautiful variety that will make a dandy cut flower.

GLAMIS (Palmer 40) 530—90

Everyone will agree that this is one of the most beautiful glads. It is a clear ruffled rose-pink with 6 or 8 florets open.

GOLDEN GATE (Kundred 40) 410—85

This tall deep yellow is better than Van Gold and has spikes of a very light weight. It blooms a bit hooded with 6 to 8 open.

HARMAU (Both 40) 533—75

Very early ruffled orange-red with a deeper throat. One of the best cut flowers. Surely different and beautiful, and a money maker for cut flower growers.

HAWKEYE RED (Heaton 44) 450—85

A bright red sport of Vagabond Prince, which opens 8 to 10 well-placed florets on a tall strong spike. Outstanding this past season.

HIGH FINANCE (Wilson 40) 582—95

One of the leading smoky glads. It is a tall orange-grey with a cream throat and is a paler version of the older Mother Machree.

HOSTESS (Harris 44) 430—80

A lovely shrimp-pink with white blotch. Has good spikes with good placement. Sold out early last year in Canada and stocks are still limited. One for all cut flower growers to raise.

INVICTUS (Pacific Bulb Co. 42) 441—70

Invictus is white turning toward a vivid pink near the heart of the flower and climaxed by a large scarlet throat. It is one of the first spikes to bloom. Tall grower and 100% good spikes.

JAYS JOYS (Youman) 422—88

A tall vigorous orange with 5 inch florets and a well formed spike. The blooms are perfectly placed.

JEANIE (Pruitt 41) 440—85

A very tall pink with a cream throat that is one of the most beautiful glads. Grows tall with good spikes. Opens 6.

KENWOOD (Lins 43) 452—80

A pure red that opens 6 five and one-half inch blooms on a tall spike. The blooms are well attached and open wide and are of good substance. This glad is a very good propagator and opens well after cutting.

KESTREL (Palmer 45) 420—80

Very tall large orange-salmon with creamy throat. Spike has 20 buds with 8 to 10 open. Good propagator and grower.

KING CLICK (Wilson 41) 552—90

Bright scarlet which opens eight to ten on a long flowerhead. Grows 60 inches tall and has a good show record.

KING LEAR (Palmer 38) 570—75

Large reddish-purple with a silver line on the edge of each petal. Opens 6 huge, beautiful blooms and is a great glad for roadside sales.

KING WILLIAM (Schenetsky 40) 530—85

This is a soft salmon and apricot with a lighter cream throat. It is a good Picardy sport, and in the opinion of many growers, more beautiful. King William is a very good show glad and cut flower.

KULSHAN (Kaylor) 470—70

Very early deep reddish-purple that cuts 100% good spikes. Opens 5 on a tall, strong, slender stem.

LADDIE (H. E. Wilson) 440—80

A fine light pink with rosy shades. It is a tall grower and opens eight to ten large blooms at a time.

LADY JANE (Lake 41) 406—85

A clear cream with light yellow lips and 8 large, slightly ruffled blooms opened. One of the best—a dandy cut flower.

LAVENDER DREAM (Goede 48) 466—85

Beautiful light lavender with up to 10 open. The florets are often misplaced, but most everyone seems to like it. In my opinion, it's not so hot.

LEADING LADY (Johnson 42) 506—87

A white sport of Picardy that is the leading glad today. It has won all kinds of Championships. Spikes are tall with 8 large blooms open and well placed. Don't miss growing Leading Lady.

LEGEND (Fisher 40) 540—90

A light pure pink, blending to a rich cream throat, very tall and opens six large florets. If you like pinks you will surely like Legend.

LEXINGTON (Hatch 43) 570—80

Tall purple that opens 6 well placed florets on good spikes. Largest in this color class. Will become popular, I am sure.

MAGNOLIA (Palmer 40) 540—85

A light creamy-rose that opens 6 to 8 on a nice spike. In my opinion, this is one of the best cut flowers and growers are just beginning to realize that Magnolia is a must have.

MALTA (Palmer 42) 560—85

This is begonia-rose, a sister seedling of Corona and like that variety in habits. It is a tall grower with 6 huge florets open on a good flowerhead.

MANSOER (Salman 47) 454—82

Opens 8 well placed blooms that are loosely attached on a tall spike. Color is blood red with a brownish glow.

MARGARET BEATON (Twomey 37) 501—85

A large snow-white with an orange blotch. Has tall spikes and is one of the most popular glads. Opens 6 to 8.

MARGUERITE (Pommert 39) 533—80

A very large watermellon-pink with a cream throat. We are offering a select stock of this, as ours grows taller and better.

MARSEILLAISE (Scheer 41) 536—95

Late red that makes good spikes. Color is a crimson-scarlet shade. It is tall and opens well and should be better known as a cut flower. Florists like it.

MAXWELTON (C. G. 36) 460—100

Large soft rose with darker blotch. Somewhat like a rose Picardy. Opens 6 to 8 on tall straight spikes.

MERCURY (Lins 41) 436—85

A brilliant vermillion-red that opens 8 to 10 large florets. This is one of the best reds, a real bright glad that gets a lot of attention. It is a very heavy show winner.

MISTY DAWN (Rich 41) 580—95

A tall smoky-gray or blue-salmon—a great show winner. The florets are well arranged on a good spike. This smoky is hard to beat and is a favorite with the ladies.

MODERN TIMES (Salman 48) 560—75

Crimson purple or reddish rose same as Boulogne and a better glad in my opinion. Grows tall and straight with nice long spikes of bloom with 6 to 8 open. Unusually good grower.

MOHAWK (Stevens 40) 454—85

The demand for this picks up each year. A dark maroon-red that opens up to 8 on a 55 to 60 inch spike. The best in this shade.

MOTHED KADEL (Kadel 41) 410—77

A clear medium yellow, 5 to 7 well placed blooms open on a spike of 15 to 17 buds. The best low price commercial yellow on the market today.

MOUNT INDEX (Miller 42) 401—68

Here is the perfect early flowering white. The exquisitely formed florets are firmly attached and placed on very tall spikes. Opens 8. Without a doubt one of the best commercial glads. Don't miss Mt. Index.

NEW EUROPE (European 47) 436—100

A wonderful brilliant red that is a very strong grower. The tall strong stems bear huge florets, with 8 to 10 open. This is a new glad from Europe that has become very popular.

OREGON GOLD (Majeski 41) 410—110

Tall, late, light yellow which is ruffled. Opens 9 medium large blooms on good flower-heads.

PANDORA (B. L. Palmer 40) 442—85

Clear soft geranium pink. Opens 8-10 blooms on a medium spike. Is really beautiful and in my opinion has been overlooked. Very good commercial.

PICARDY (Palmer 31) 530—90

The well known Picardy is a beautiful light salmon-pink. I have not offered this for the past five years, but now have a healthy strain of this glad that will produce marvelous spikes.

PINK PARAGON (Cassabeer 43) 342—90

Bright clear pink, which opens 5 to 7 blooms on a long flowerhead. One that florists are fond of. Outstanding as a commercial.

PINK RADIANCE (Quakenbush 41) 440—85

A pure pink, opens 6 to 8 on a tall spike. A very dependable glad and one of my favorites for cutting.

PURPLE ROBE (Butt) 462—90

Tall reddish-purple with white feathers in throat. Opens 8 on a good spike. Looks like a good purple.

PURPLE SUPREME (Wilson 42) 470—85

One of the good purples for show and commercial use. It opens 8 on a very tall spike and is a heavy propagator. A glad which everyone seems to like.

RADIANCE (Butt 42) 350—70

A very early light red with deeper feather in the throat. An attractive color. Has good placement with 8 medium size florets open. Good early cut flower.

RECADO (Palmer 37) 480—90

A large smoky-rose that is an easy grower. This has been one of my best sellers for the past five years. Very odd and different.

RED CHARM (Butt 39) 452—85

Surely one of the best reds. Growers have bought this in very large amounts. It is one of the best show glads, as well as the leading cut flower red. Outstanding.

RIO RITA (Lins 41) 523—95

A large exhibition orange that opens 6 large blooms on a medium height spike. Florets are ruffled. Some growers believe that this is the best orange.

ROLLA (Kaylor 45) 480—80

A novelty that is hard to describe—one of the oddest glads. It is a tall grower that is reddish-purple at the outer edges, shading lighter to the throat and with an orange overcast.

ROSA VAN LIMA (Pfitzer 40) 460—80

A fine light rose-pink. A very good grower and one of the best cut flowers.

SALMAN'S GLORY (Salman 47) 507—80

The best from Europe in some time—a supreme beauty and a giant. Pure light cream with carmine blotch. Opens 6 well placed florets. One of the very best. Attracts a lot of attention.

SILVER WINGS (Ritsma 44) 500—88

Another white sport of Picardy which is more ruffled and whiter than Leading Lady. It is a heavy propagator and in the opinion of some growers, much better than Leading Lady. Truly very fine and am sure you will enjoy growing it.

SNOW PRINCESS (Pfitzer 39) 400—80

A large white that is a good commercial and show glad. It is about the best of the cheaper whites and a very good grower.

SPOTLIGHT (Palmer 44) 413—80

Without a doubt the best deep yellow of recent years. Has a pronounced scarlet spot in the throat. Produces tall straight spikes with 18 buds. Opens 6 well placed blooms. A dandy show and commercial variety.

STOPLIGHT (Lins 42) 452—90

One of the leading commercial reds. Has good straight spikes with up to 8 open. In my opinion a fine red that everyone should grow.

SUNRISE (Butt 44) 460—98

Tall pink with a large yellow blotch that was one of the best here this past season. Opens 8 on a tall spike.

SWEET ORCHID (Rich 43) 466—77

An orchid-pink with a cream throat. It is hard to describe how beautiful this glad really is. It is a medium height grower that the ladies rave over. Wonderful florists color.

TAHITI (Kuhn 42) 462—85

Supposed to be the finest old rose commercial. Makes good spikes and I am told brings in extra prices as a cut flower.

TAHLAHNEKA (Miller 42) 510—85

A big light yellow that was wonderful here this past season. Opens 8 on very tall spikes. One of the largest yellows.

TOPSCORE (Kooy 47) 451—80

A vivid vermillion-red of good size. Makes good spikes with rather loosely attached florets.

VALERIA (Pruitt 38) 436—85

Light scarlet which opens 5-7 blooms. A good shipper and always in demand. Never enough to go around. Slow propagator.

VINCENT Van GOGH 432—75

Deep salmon pink or light red. It opens 8 on a medium tall spike. Looks like Valeria and like that variety is very early. Should become a popular commercial.

VULCAN (Stevens 42) 470—82

One of the most beautiful purples that opens 6-8 large wide open blooms. It is a tall grower. Am sure you will love Vulcan.

WANDA (Snyder 41) 406—83

A popular cream sport of Picardy that has the same growing habits and the same sized florets. This is very popular in the New York market.

WHITE GOLD (Scheer 41) 506—70

A very large cream. A tall grower and one of the sensational show glads. It has won about every prize you can think of and is a very good early commercial.

W. R. READER (Turnbull 42) 530—70

A light salmon from Canada that has a wonderful show record. Six to 8 open on a fine spike with wonderful placement.

YANGTZE (Harris 41) 312—87

A deep empire yellow of good size. A first class easy grower that is very popular in Canada. This is one of the best low price yellows. Very fine.

FORMULAS FOR DIPS AND SPRAYS

LYSOL DIP

4 tablespoons of Lysol
 3 gallons of water
 or
 1 pint of Lysol
 25 gallons of water.

Soak bulbs in the Lysol solution for at least 3 hours and no longer than 6 hours; soak bulblets overnight or 12 to 14 hours. After bulbs or bulblets are removed from the solution, allow to drain for 30 minutes and plant same day as treated, preferably while still wet.

BICHLORIDE OF MERCURY

1 oz. Bichloride of Mercury
 7 gallons of water

Soak 10 to 12 hours immediately preceding planting. Plant wet. Must be used in an earthen or wooden container.

NEW IMPROVED CERESAN DIP

1 ounce New Improved Ceresan
 3 teaspoon measures Crasselli Spreader Sticker or 3 teaspoons Dreft
 3 gallons water

To get a good preparation easily and quickly, mix the Ceresan and wetting agent together, add a little water at a time, and stir until a uniform mixture is obtained. DO NOT USE THE HANDS WHEN STIRRING. Soak bulbs in the solution for 15 minutes, stirring several times during treatment; soak bulblets for 30 minutes. After bulbs or bulblets are removed from the solution, allow them to drain for about 30 minutes and plant IMMEDIATELY. A delay in planting can cause injury to the bulbs. If the ground is dry at planting time, I suggest the Lysol treatment instead of N.I.C. as dryness can cause a considerable delay in germination or growth besides possible injury to the bulbs.

THRIP SPRAY

2 ounces Tarter Emetic
 2 ounces brown sugar
 3 gallons water
 Mix well and spray weekly after the foliage is in third leaf.
 or
 ½ lb. DDT (50%)
 ½ pint liquid soap (Germicidal)
 25 gallons of water

For small plantings the following DDT spray is reported as giving good results:

1 rounded teaspoonful DDT (50%)
 ½ teaspoonful Dreft
 1 gallon water

DUSTING—The easiest and most efficient means of controlling Thrips is to dust the foliage of the plants with 5% D.D.T. Many types of dusters are available and one can be obtained to suit your size planting. Begin dusting when plants are in third leaf and continue about every two weeks. If this is done you can say goodbye to Thrips!

CAUTION: Bichloride of Mercury, Lysol, New Improved Ceresan, Tarter Emetic, and DDT are poisonous and care should be taken in handling and storing these materials.

CULTURAL HINTS

Packages of bulbs must be opened as soon as received and the bulbs stored in a cool, dry place until planting time.

PLANTING DATES. Any time from early Spring until the first of July. The blooming season can be prolonged until frost if planted at intervals of every three weeks.

WHERE TO PLANT. Glads should be planted open, sunny places, away from buildings and trees. They are primarily cut flowers and should be planted in rows such as a vegetable garden.

SOIL. Glads will grow in any kind of soil but do best in a sandy loam. The soil must be well drained. It pays to spade deeply.

FERTILIZING. The amount to use will depend upon the fertility of your soil. Any good commercial fertilizer will give good results or you can ask your dealer for the fertilizer commonly used on potatoes in your locality. Most growers prefer to place the fertilizer in the bottom of the trench as the bulbs are planted. Care must be taken to see that the fertilizer is mixed with the soil and then about 2 inches of soil placed over the mixture. The bulbs should then be set in the row, leaving the 2 inches of soil between them and the fertilizer.

DISINFECTING. All bulbs and bulblets should be dipped in a disinfectant in order to kill Thrips and to prevent possible disease infection on the bulbs. Nothing will cure bulbs affected with any of the rots. Bulbs showing rot should be discarded at once. (See formulas for Dips and Sprays.)

PLANTING. Plant from 3 to 6 inches deep. Small bulbs should be planted about 3 inches deep and larger sizes up to 6 inches deep. If you have a heavy clay soil 4 to 5 inches will be deep enough. The bulbs should be set not closer than 4 inches apart in the rows and the soil must be firmed well after planting.

WATERING. Glads need plenty of moisture. To produce top bloom they should have 1½ to 2 inches of water per week. Whenever the natural rainfall fails to supply this quantity be sure to put it on in the form of irrigation. It is best to water just once or twice a week, soaking the soil well, so that the roots are not pushing upward to the surface of the ground.

CUTTING BLOOMS. Glads are the most popular cut flower grown today. To enjoy them at their best the spikes should be cut when the first floret is in full bloom. They should be placed in water at once and taken indoors to develop slowly. You can enjoy a spike a long time as a good variety will open every bud to the tip, in water. If the water in the vase is changed daily and about an inch of the stem is cut off (slantwise) each day, many varieties will keep for as long as a week. When cutting the spike always leave 4 leaves on the plant to develop the bulb for next year.

DIGGING. Bulbs should not be dug until about 6 weeks after blooming. This is in order to mature the bulbs. A good sign is to watch the foliage and when it begins to turn brown, dig at once. After the tops are cut off, close to the bulb, dry the bulbs in the air in trays or boxes. It is best not to allow the sun to shine directly on them while drying. After 2 or 3 weeks of drying the old bulb and roots can then be removed. DO NOT remove the husks as this protects the bulb during storage.

STORAGE. After drying, the bulbs should be stored in screen bottom trays or boxes in the coolest place available. They must not be exposed to freezing temperatures. The ideal storage temperature is 38 to 45 degrees. Bulbs should not be placed too deeply in the boxes as they need air while in storage.

When you get ready to store your bulbs, be sure to give them a light dusting of 5% D.D.T. This will eliminate any danger of thrips feeding on your bulbs during storage period. Glads are easy to grow and anyone, even a beginner, can grow the finest show flowers!
